PROJECT EXPERIENCE

MULTITRAVERSAL

Lead Gameplay Programmer (Unity/C#) | Santa Cruz, CA
2025 - 2026

- Led gameplay programming for a four-person capstone, writing 90% of the game's codebase.
- Implemented Unity gameplay systems including inventory, crafting, save/load, dialogue, UI, player interaction, and health, hunger, and stamina mechanics.
- Collaborated with artists and designers using Git to deliver a polished final build.

DON'T TURN IT ON

Solo Developer | San Diego, CA
2022 - 2023

- Designed and programmed three puzzle-adventure Minecraft maps using command-based scripting and game logic systems.
- Released the series to over **30,000 downloads**, earning a **4.7/5 average player rating**.

EDUCATION
